12.	Data Protection and Data Security.....	9
13.	Final Provisions.....	9
14.	Identity of the Provider; Contact Details.....	9

1. Scope of Application

The following terms of use for the Digital Extras services are an offer of Mercedes-Benz Malaysia Sdn. Bhd., Wisma Mercedes-Benz, 16A Jalan BK1/13, Taman Perindustrian Bandar Kinrara, 47180 Puchong, Selangor Darul Ehsan, Malaysia ("Provider") (hereinafter "Terms of Use") and apply to the provision of Digital Extras information and telematics services, on-demand features and other digital content, digital products and digital services that may be purely digital or control certain functionalities of the underlying hardware ("Digital Extras") provided by the Provider and their use by the Customer.

2. Customer, Registered Owner, Other Products

2.1 "Customer" is the person who fulfils the requirements of Clause 4.3 and has concluded these Terms of Use successfully and appropriately pursuant to Clause 3.1.

A "Customer" can be either a consumer or a registered business. A consumer is any natural person who is not primarily acting in a commercial or self-employed professional capacity when entering into a legally binding transaction. A registered business is a legal entity, company, cooperation or partnership which has concluded a contract with the Provider for the use of the Digital Extras in the exercise of its commercial or independent professional activity.

2.2 "Registered Owner" is the person who is registered as the person responsible for the vehicle in the relevant National Vehicle Register.

2.3 "Other Products" are, in addition to vehicles, other products that can be controlled using Digital Extras or enable additional functionalities (e.g. Mercedes-Benz Wallbox).¹

3. Effective Date and Change of the Terms of Use

3.1 A precondition for using the Digital Extras is that the Customer has set up a Mercedes me ID, registered himself in the customer portal and has accepted these Terms of Use online. The Terms of Use shall become effective between the Customer and the Provider when the Customer receives a confirmation, but no later than the date on which the Customer is able to use the respective Digital Extras for the first time.

If the Customer is a registered business pursuant to Clause 2.1, it must also conclude a data processing on behalf agreement with the Provider before these Terms of Use take effective.

3.2 Any terms of the Customer that differ from these Terms of Use shall not apply unless the Provider explicitly agrees to their validity in writing.

3.3 The agreement shall be concluded in English.

3.4 The Provider is entitled to make changes to the Terms of Use for valid reasons – in particular, if so required by new technical developments, further development of the contractual services, changes in law or other equivalent reasons which make this necessary. If the change would lead to significant disruption of the contractual balance between the Parties, it will be waived.

3.5 Irrespective of the aforementioned reservation of the right to make changes and amendments to the Terms of Use, the Provider is also entitled to make changes and amendments to the Terms of Use if the Provider notifies the Customer in text form (including by e-mail, SMS, and message in the Mercedes-Benz mailbox) at least seven (7) days prior to the day on which the amendment or addition takes effect (calculated from the date of receipt of the notification by the Customer). The amended Terms of Use shall be deemed to have

¹ The provisions relating to other products or the Mercedes-Benz Wallbox within these Terms of Use only apply to wallboxes and other products that are pre-equipped for the remote functions via the Mercedes-Benz App. These Mercedes-Benz wallboxes and other products are not available in every country.

been accepted unless the Customer files an objection within seven (7) days of the receipt of the notification. The Provider will inform the Customer separately of this legal consequence in its notification.

4. Scope of Digital Extras

- 4.1 When the Terms of Use become effective, the Customer may be entitled to use certain Digital Extras free of charge for an initial period of time, if they are offered. The Customer may obtain additional information in this regard on the customer portal referred to in Clause 14.2 ("Customer Portal").
- 4.2 In addition, the Customer may acquire the right to use paid Digital Extras ("Fee-based Digital Extras") together with the purchase of the vehicle² or via the Mercedes-Benz Store. The additional terms and conditions agreed for the sale of the Digital Extras shall apply to the purchase of the Fee-based Digital Extras and, in the event of purchase via the Mercedes-Benz Store, the General Terms and Conditions of the Mercedes-Benz Store shall apply. These Terms of Use apply to the use of the Fee-based Digital Extras by the Customer.
- 4.3 The use of the Digital Extras is intended for consumers or registered businesses according to Clause 2.1³ who are either the Registered Owner of the vehicle or owner of Other Products with which the Digital Extras are to be used, or have been authorised by the Registered Owner or owner of Other Products to use the vehicle or Other Product including the Digital Extras. In addition, (i) consumers must have their permanent place of residence (registered address) in Malaysia and (ii) registered businesses³ must have their place of business in Malaysia. The place of residence and place of business establishment are hereinafter referred to as "Residence."
- 4.4 Digital Extras that require a paired vehicle (see Clause 5.3) apply exclusively to the respective vehicle (e.g. charging services, streaming services, third-party provider convenience data volume) and are not transferable to other vehicles. In addition, all Digital Extras may only be used for the purpose specified in the description of the respective Digital Extras. The same applies to Other Products paired to the user account (e.g. Mercedes-Benz Wallbox).
- 4.5 The description of the individual Digital Extras, i.e. the scope of services, conditions of use, availability and any further information, can be found in the Customer Portal⁴, the Mercedes-Benz App, the vehicle order including Digital Extras or in the Mercedes-Benz Store. The scope and availability of Digital Extras may vary depending on the vehicle model and equipment or depending on the type of Other Product and equipment (such as whether specific equipment is installed or included in the vehicle). The Customer is advised to make an enquiry regarding the availability of the Digital Extras for its vehicle before purchasing the Digital Extras. The Provider reserves the right to further develop the Digital Extras at any time, and to add, change or remove individual functions. Changes will only be made if there is a valid reason and no additional costs are incurred by the Customer. The following circumstances may lead to a change in the Digital Extras: adaptation to a new technical environment, adaptation to an increased number of users, adaptation for important operational reasons, further development of Digital Extras, adaptation owing to new legal requirements and supreme court rulings or other equivalent reasons.
- 4.6 Subject to Clause 4.15, the Digital Extras are generally available in Malaysia. If certain Digital Extras are geographically limited or are not yet available, this is listed in the service description. The Digital Extras can be used in Malaysia, Thailand and Singapore for vehicles sold or distributed by the Provider and/or its Mercedes-Benz Authorized Sales Agents. If the Customer changes the country of residence in their user account to another country other than Malaysia, or the Customer moves the vehicle or Other Product to a country outside Malaysia, Thailand or Singapore, it is possible that the Digital Extras may be impaired or may not function at all owing to country-specific technical vehicle equipment (e.g. communication module), the country-specific availability of third-party providers and content providers or for legal or regulatory reasons.
- 4.7 The Provider shall provide the Customer with the use of the Customer Portal, the Mercedes-Benz App or other mean of access (cf. Clause 4.9) for the Digital Extras, which the Customer can use to set up an interface and manage his Digital Extras online ("User Account").
- 4.8 The Customer can pair up to 20 vehicles and up to 3 Mercedes-Benz Wallboxes to his/her User Account, and may unpair these again at any time. If the Customer is a registered business, it may also set up additional vehicles if it obtains authorisation and approval to do so from a Mercedes-Benz Authorized Service Dealer ("Service Partner"). Pairing and unpairing of the vehicle or Other Products are governed by Clause 5.3.
- 4.9 The Customer may operate and use the Digital Extras via the means of access listed below (collectively, "means of access"): a) via the infotainment system in the vehicle, b) online in the Customer Portal and/or c) via mobile applications using compatible end devices ("Apps" or "App"). The means of access available for each Digital Extra is determined by the respective description of the Digital Extras in the Customer Portal,

² At present, Digital Extras cannot be purchased together with the vehicle purchase in all countries, and not for every vehicle model.

³ For registered businesses, the contractual offer is not available in every country. If no selection option for registered businesses is available during registration or in the existing account, the offer is directed only at consumers.

⁴ The Customer portal is not available in all countries. In these cases, the Mercedes-Benz app is available as an alternative.

- the Mercedes-Benz Apps and/or the Mercedes-Benz Store. We reserve the right to make changes to the means of access, provided that the change is reasonable for the Customer.
- 4.10 The Customer can delete the Apps at any time. In this case, the Digital Extras are no longer available to the Customer via the Apps. Changes made to the compatible end device (e.g. update of the operating system, jail-breaking) may also render the Apps unusable.
Please note: Any obligations to pay the fees for Fee-based Digital Extras shall remain unaffected by deletion of the Apps or by the described changes to the compatible end device.
- 4.11 The Customer is given the option to activate and deactivate individual Digital Extras. When a Digital Extra is activated, the Customer can use the Digital Extra. If a Digital Extra is deactivated, then the Digital Extra will not be available to the Customer during that time. As a rule, new Digital Extras do not become effective for the Customer until he activates them.
Please note: Any obligations to pay the fees for Fee-based Digital Extras or contractual agreements with third-party providers remain unaffected by a deactivation of the Digital Extras.
- 4.12 If the Customer cancels the purchase of a Fee-based Digital Extra, if a Fee-based Digital Extra expires or if the Fee-based Digital Extra is terminated, the Provider shall be entitled to deactivate the Digital Extras concerned.
- 4.13 In addition, the Provider also reserves the right to deactivate or restrict the Digital Extras for important reasons (e.g. data security, security problems with content providers/third-party providers).
- 4.14 The display in the vehicle's instrument cluster or in the Other Product's display has priority over all other information channels, such as the display of the Customer's means of access. The information displayed in the infotainment system or in Apps is not binding, may, in whole or in part, be incomplete, incorrect or not up to date, and applies at the time of retrieval.
- 4.15 The provision and use of the Digital Extras may be subject to limitations and inaccuracies that are beyond the control of the Provider, taking into account of the current state of technology. In individual cases, there may be discrepancies between the vehicle operating data displayed in the vehicle (e.g. in the Infotainment system) or, if available, in the display of the Other Product from those in the Customer's respective means of access. This applies in particular to the availability of the mobile data connection provided by mobile phone companies, the mobile network, GPS location services via a global navigation satellite system and Internet access. The Digital Extras are therefore geographically limited to the reception and transmission of the radio stations operated by the relevant mobile phone companies. The unavailability of the mobile network may mean that individual Digital Extras are not available because the necessary data transfer cannot take place. Moreover, Digital Extras can be adversely impacted by atmospheric conditions and topographical features or by obstacles (e.g. bridges, tunnels, buildings). The same applies to GPS. Other disruptions, such as network overload, may impair the use of the internet. In addition, short-term capacity bottlenecks may result from spikes in the use of the Digital Extras, mobile and landline networks, or the internet. The mobile connection between the vehicle and the Backend, which is currently provided via an external telecommunications operator and its roaming partner, is currently based on an annual average service of 97.0%. Disruptions of the transmission quality by atmospheric or similar conditions cannot be excluded.

When using data via the mobile telecommunication services, the logged-on users share the available bandwidth (so-called shared medium) in the mobile radio cells. The actual achievable transmission rate during the data usage is also dependent on the total availability of the respective technology, the transmission rate of the server selected for providing the corresponding Digital Extras, the occupancy/capacity utilisation of the mobile network by the number of users in the respective mobile radio cell, the distance to the antenna and the movement of the user.

Disruptions may further arise for reasons of force majeure, including strikes, lockouts or administrative orders, as well as due to technical or other measures (e.g. repairs, maintenance, software updates, enhancements) which need to be carried out on the systems of the Provider or on those of upstream or downstream service providers, content providers or network operators which are necessary in order to ensure that the Digital Extras are properly provided or improved.

The use of the Digital Extras via the Apps may also be subject to restrictions and inaccuracies owing to unavailability, or owing to impairments or malfunctions of the Apps or the compatible end device (e.g. owing to force majeure or to technical and other measures such as maintenance, software updates, enhancements for the Apps).

- 4.16 For certain Digital Extras (e.g. Internet radio, Petrol Station Prices, Live Traffic, Car-to-X Communication), the information available through the Digital Extra is prepared by third-party content providers and may be incomplete, inaccurate, out of date or unavailable in whole or in part. The Provider assumes no responsibility for checking whether the information is complete, accurate or up to date, or for completing, correcting or updating such information, or for making sure that the information is available or is made available in a certain quality. The Customer is independently responsible for his use of the information and make decisions based on his/her own responsibility; accordingly, it is incumbent on the Customer to review whether or not

the information is complete, correct, up to-date and is available or is made available in a quality suitable for his/her needs.

- 4.17 To prevent disruptions to the workshop process during a workshop visit, Digital Extras may be temporarily unavailable or only available to a limited extent.

In addition, maintenance and repair work carried out on the vehicle during the workshop visit can generate data that lead to erroneous status messages and diagnosis messages via different means of access. As a result, the Customer may receive erroneous offers for maintenance services or an erroneous request for an appointment due to a recognised need for repair by the Service Partner. Under certain circumstances, it may be necessary for the Customer to reactivate the Digital Extras after the workshop visit.

- 4.18 The Digital Extras require a fully functioning power supply in the vehicle from the vehicle battery or the Other Product. If the Digital Extras are used excessively and the vehicle's battery is not intermittently charged by a running engine, or connecting the battery to a power supply (in the case of electric vehicles), then this may result in the battery becoming depleted. If the vehicle is left stationary for a long period, this can cause the communication module ("Communication Module") in the vehicle to turn off and thereby disrupt the mobile data connection to the vehicle until the next time the vehicle is manually started up.

- 4.19 The Provider shall provide software updates for the Digital Extras and the functions of the vehicle or Other Product to maintain safety and conformity with the contract within a reasonable period of time from the effective date of the Terms of Use and the pairing of the vehicle or Other Product (e.g. Mercedes-Benz Wallbox). Furthermore, there is no entitlement to software updates that go beyond the maintenance of contractual conformity or security updates, for example by improving or expanding Digital Extras and providing or enabling new functions of the vehicle, the Other Product and the Digital Extras. The Customer agrees that software updates offered for download via the integrated (vehicle) SIM card or Customer's own data connections will be executed automatically. For this purpose, the automatic download and installation of software updates is preset in the vehicle or Other Product, as far as technically possible. If a software update is not carried out automatically, it is only carried out after installation by the Customer. The Customer acknowledges that the performance or functionality of Digital Extras, the vehicle or the Other Product may be impaired if software updates are not installed on time or properly. The Provider is not liable for a defect that is based on the fact that the Customer has not installed software updates or has not installed them properly. With each software update, the Provider will inform Customers that a software update is being provided, what it contains, the consequences of failing to install it and how to install it. The Provider reserves the right to make changes to the scope of services of the Digital Extras and functions of the vehicle or Other Product in accordance with the provisions of Clause 4.5, including by means of software updates.

- 4.20 Software updates are subject to the availability or limitations of the selected data connection and the equipment of the vehicle or Other Product. This means that the time it takes to download and install any software can differ from vehicle to vehicle or Other Product and can take anywhere from a few minutes to several hours. The Customer is aware that downloading software updates via the Customer's own data volume may incur additional costs with the Customer's network providers. For technical reasons, some software updates can only be carried out in the workshop.

- 4.21 The Customer is not entitled to obtain the software updates by other means (e.g. through the Service Partners). While the software update is downloading and installing, the functionality of the vehicle or individual components (e.g. the infotainment system or Communication Module) or the Other Product may be restricted for a limited period of time. In the unlikely event that a serious technical error during the installation of the software update, the functionality may continue to be restricted and a workshop repair may be needed.

5. Conditions of Use

- 5.1 The use of the Digital Extras requires the permanent acceptance of these Terms of Use and the Mercedes me ID as amended from time to time (Clause 3.1), the permanent pairing (Clause 5.3) of the vehicle or the Other Product with the user account and, where applicable, activation of the Digital Extras (cf. Clause 4.11). After the initial term has expired, the Digital Extras can be extended in the Mercedes-Benz Store for a fee, provided they are still offered for the corresponding vehicle or Other Product at that time. In addition, further conditions of use may be necessary for the use of some Digital Extras, e.g. the conclusion of a contract with a third party (see Clause 5.5), a compatible product (e.g. smartphone, smartwatch) or the Customer's own data volume. Furthermore, for vehicles, the connection of the communication module to the mobile phone network, including the emergency call system, depends on the respective network coverage and availability of the network provider.

- 5.2 The Digital Extras are available in Mercedes-Benz of newer model series that are equipped with an integrated Communication Module. Some of the Digital Extras are based on a hardware component or require additional special equipment in the vehicle or in the Other Product. The Digital Extras for Other Products require that pre-installation for remote functions via the Mercedes-Benz App is available. Details and any further conditions of use can be found in the respective service description. For certain functions and Digital Extras, the vehicle requires a mobile data connection between the vehicle and the Backend, as well as the

compatible end device of the Customer. In addition, the vehicle must be equipped with an Infotainment system. To use the Digital Extras for the Mercedes-Benz Wallbox, the Wallbox must have an internet connection (e.g. WLAN, LTE-M SIM).

For data transmission to the CAC, it is necessary that the Customer's compatible device is GPS enabled and that GPS is activated. Additional conditions of use or deviations may result from the description of the respective Digital Extras.

- 5.3 In order to use the Digital Extras for a vehicle, the vehicle must be paired to the User Account and remain paired ("Pairing"). The same applies to Other Products. Pairing is carried out locally by Service Partners or online via the User Account. The Customer can obtain more information on this in the Customer Portal or from Service Partners.

Only one Customer can be assigned to each vehicle and each Other Product as the main user at any one time. If the Customer is a registered business, several main users can be created for each vehicle. Additional vehicle users may be registered as "Co-Users" within the meaning of Clause 10.1.

The unpairing of a vehicle or Other Product takes place by the Customer either by removing the vehicle or Other Product from his User Account, or by requesting unpairing in text form (including by email) to the Provider or CCC referred to in Clause 14.2. With the unpairing, access to the Digital Extras in the affected vehicle or Other Product are deactivated for the Customer.

Note: Any obligations to pay the fees for Fee-based Digital Extras shall remain unaffected by any unpairing.

- 5.4 For security reasons, an identity check is required for the use of some Digital Extras. This can be done with an identification document on site at the Service Partners or online via the App. The Customer will be informed of the necessity of the identity check when activating all Digital Extras or the corresponding Digital Extra. The Digital Extra can only be used by the Customer after a positive identity check. The Provider reserves the right to repeat the identity check at a later date.
- 5.5 For the use of the Digital Extras that embed services from other companies ("Third-Party Providers") (e.g., streaming services, parking, charging, refueling), the Customer shall enter into a separate agreement with the respective Third-Party Provider at the terms and conditions of the respective Third-Party Provider. If necessary, the Customer must create a separate User Account "" with the Third-Party Provider ("Third-Party Account") (e.g. streaming services). In addition, for certain Digital Extras, the Customer must conclude a contract with a mobile communications provider who is independent of the Provider. The Provider assumes no responsibility for the performance of the Third-Party Provider and the mobile communications provider.
- 5.6 The use of Digital Extras via Apps requires a compatible end device and a mobile data connection and the App must be obtained and installed on the compatible end device.
- 5.7 Another prerequisite for using the Digital Extras is regular updating of the Apps when updates are available.
- 5.8 For Customers with a vehicle featuring optional equipment for highly automated driving functions ("System"), the following applies: To use the System requires Digital Extras to be activated and available during use. Despite the activation of these Digital Extras, it is possible that the System will not be available or only available to a limited extent. This is because the System's availability and activation depend on other system requirements and limits, and are subject to functional, geographical, local and time-related restrictions. Among other things, the System's availability depends on suitable weather conditions, the route network that is currently available route approval and/or the respective traffic situation. The availability of the System may also be limited for security reasons. The availability of the System also depends on the currently applicable laws of the country in which the vehicle is to be used. The operating instructions contain more information regarding the System requirements and limits, as well as the processing of data in vehicles with highly automated driving functions.

6. Payment Function within the Scope of Digital Extras

- 6.1 The payment function enables the Customer to conclude and pay for a contract within the scope of certain Digital Extras.
- 6.2 When using the payment function, the respective third-party provider or sales partner becomes the contractual partner ("Seller") of the Customer. The Provider merely acts as an intermediary for the conclusion of the contract and does not itself become a contracting party. The contract shall be governed by the respective Seller's general terms and conditions.
- 6.3 With the respect to the payment of the price, the Provider acts as a technical service provider and shall only provide the technical platform for the payment. The Provider may engage other service providers for this purpose. Authorization of a payment, access to a payment account of the Customer as well as the transfer of the price from the Customer's payment account to the Seller shall be made exclusively by payment service providers commissioned by the respective Seller (e.g. payment service provider or acquirer) (hereinafter referred to as "Payment Processor"). At no point during a payment transaction does the Provider come into possession of the funds to be transferred.
- 6.4 The prices displayed by the respective Seller apply to the contract. Once the contract has been concluded, the price to be paid will be displayed in the corresponding means of access, if applicable. The price shall fall due immediately upon conclusion of the contract. The Customer shall immediately notify the Provider of any

discrepancies between the price shown for the relevant user access and the amount stated by the Seller (e.g. by email to me-connect.mys@cac.mercedes-benz.com).

- 6.5 Use of the payment function is only possible if the necessary payment and customer data is entered in full, and if a valid means of payment is stored in the User Account.
- 6.6 When using the payment function, some Sellers require the pre-authorisation of the transaction by the Payment Processor based on a maximum limit set by the Customer. If the Payment Process does not pre-authorise the transaction, the Seller reserves the right to refuse the transaction.
- 6.7 After confirmation of the payment by the Customer via the payment function, the Provider shall forward the information required for the payment of the price to one or more Payment Processors and/or the Seller. The Provider may engage other service providers to forward the necessary data to one or more Payment Processors or a Seller. The purchase price shall only be debited by a single Payment Processor to the means of payment stored in the User Account, and transferred to an account of held by the Seller. The successful payment of the price to the Seller shall be displayed accordingly in the corresponding access point. The Seller shall also be notified that payment has been made. The Customer shall receive a corresponding receipt from the Seller for the price paid via the notification options configured in the User Account.
- 6.8 In case of multiple payments for the same service, this is ascertained by the Payment Processor and the automatic reversal of the payment is initiated. This reversal is processed using the means of payment stored in the User Account by the Customer.
- 6.9 The Seller is solely responsible for claims arising from or relating to the contract. The Provider is not a party to the contract and therefore not obligated to provide a warranty or assume liability in connection with the contract.

7. Fees and Costs

- 7.1 There is no fee for completing the Terms of Use. The fees for the Fee-based Digital Extras apply to the order for vehicles include Digital Extras² or are those displayed in the Mercedes-Benz Store.
To be able to use the Digital Extras in the vehicle which are based on a hardware component in the vehicle, special equipment for the vehicle is also sometimes necessary and may incur an increased vehicle price. Details of the required special equipment are provided in the description of the Digital Extras and/or the order for vehicles including Digital Extras². The Customer is advised to make an enquiry regarding the availability of the Digital Extras for its vehicle before purchasing the Digital Extras. The Apps are provided to the Customer free of charge.
- 7.2 Any costs for the mobile data connection between the vehicle and the Backend are generally borne by the Provider.
The preceding paragraph does not apply for such Digital Extras where the Customer must separately purchase a data volume from a mobile service provider. The costs for purchasing the data volume depend on the respective mobile service provider's tariffs; higher fees may be incurred abroad.
- 7.3 Any costs for mobile data connection that are incurred when the Customer using his compatible end device or other media and telecommunications equipment accesses the Customer Portal or his User Account outside the vehicle shall be borne by the Customer, in accordance with the rates charged by his own service provider.
- 7.4 Any costs for the use of services from Third-Party Providers shall be borne by the Customer.

8. Obligations of the Customer

- 8.1 The Customer warrants that he is either the Registered Owner of the vehicle or that the Registered Owner of the vehicle has allowed him to use the vehicle and thus also to use the Digital Extras in the vehicle (e.g. company car driver). In the case of Other Products, the Customer warrants that he is either the Registered Owner of the Other Product or that the Registered Owner has permitted him to use the Other Product and the available Digital Extras.
- 8.2 The Customer warrants that his profile data (e.g. name, address, e-mail address, mobile phone number, date of birth) provided by him to the participating partner and stored in his user account as well as all other information provided are always true and complete and comply with all legal requirements and the applicable contractual provisions. The Customer undertakes to inform the Provider immediately of any future significant changes to the information provided that are relevant to the contractual or usage relationship. For certain vehicles, a pin-protected Customer profile is automatically created when the vehicle is paired. If the data is incorrect and communication with the Customer is therefore not possible, the Provider reserves the right to block the Customer's Digital Extras.
Note: Any obligations to pay the fees for Fee-based Digital Extras shall remain unaffected by the disconnection.
- 8.3 To receive notifications via the Apps for individual Digital Extras (e.g. theft and collision monitoring, charging), the Customer must be logged into the corresponding App and activated the notification function.
- 8.4 **The Customer is obliged to immediately disconnect the vehicle from the Digital Extras in accordance with Clause 5.3 if he is no longer entitled to use the vehicle (e.g. because it is sold or he has lost his**

right to continue using the company or leased car), or if this vehicle has been destroyed. The same applies to Other Products that are paired to the User Account (e.g. Mercedes-Benz Wallbox).

If the Customer fails to fulfill his obligation to unpair the vehicle or other paired products and another person successfully authenticates himself in accordance with Clause 5.3, or if the Registered Owner of the vehicle or Other Product reports the termination of the customer's right to use the vehicle or Other Product, the Provider shall unpair the vehicle or other product without further notice in accordance with Clause 5.3 and inform the Customer that the unpairing has taken place. The liability of the Customer according to Clause 8.9 remains unaffected thereby.

- 8.5 The Customer shall keep all access details and passwords required for the use of the Digital Extras safe, not disclose them to third parties and prevent them from being misused. In particular, the Customer shall not use the same combination of e-mail address and password for accessing to the User Account that he uses for other online services. The Customer is obliged to impose the above obligation on any "Co-Users" as defined by Clause 10.1.
- 8.6 The Customer shall only be entitled to use the Digital Extras provided that he complies with all legal requirements and does not pursue any purposes that violate the Terms of Use or applicable law.
- 8.7 If the Customer identifies that the Digital Extras have been used in violation of the Terms of Use, or that any unauthorised third party has carried out an inadmissible activity on the mobile network provided for the Digital Extras, the Customer must inform the Provider accordingly without undue delay via his User Account or by contacting the CCC using one of the methods described in Clause 14.2.
- 8.8 The software applications provided for the use of the Digital Extras may not be modified, edited, decompiled (including by means of reverse engineering), stored or otherwise reproduced.
- 8.9 The Customer shall be liable to the Provider for any loss or damage caused by violation of the obligations arising from the Terms of Use in accordance with the legal provisions.
- 8.10 The Customer shall indemnify the Provider from all claims, costs, damages and losses (including the costs of appropriate legal proceedings) caused by a third-party claim against the Provider in connection with the violation of legal provisions, third party rights, or the Terms of Use by the Customer, provided that the Customer is liable in accordance with Clause 8.9.
- 8.11 The Customer is responsible for any storage of data on his compatible end devices.
- 8.12 If the Customer provides the vehicle to another vehicle user for their use, the Customer is obliged (i) to inform the other vehicle user about the Digital Extras and associated data collection prior to the start of the journey and possibly, to obtain his consent, as well as to refer to the option to deactivate individual Digital Extras and (ii) deregister from his connected Third-Party Provider account or to deactivate the Digital Extra, in order, for e.g. to prevent any misuse by another vehicle user. Prior to the drive, the Customer must check whether the Digital Extras and functions he needs are activated.
- 8.13 The Customer is responsible for preserving and fulfilling the vehicle users' or Co-Users' (as defined by Clause 10.1) legal rights to data access, correction, erasure or exclusion, and the Provider shall support it in this regard. When processing requests for information from vehicle users or Co-Users, the Provider shall assist the Customer with compiling the necessary information upon written request and in return for the assumption of costs. If a vehicle user or Co-User contacts the Provider directly to ask for information or request that his personal data be corrected, erased, or removed, the Provider shall forward this request to the Customer without delay.
- 8.14 The Customer is under obligation to treat all knowledge of business secrets and the Provider's data security measures that it obtains in connection with the contractual relationship as confidential.

9. Term and Termination

- 9.1 The Terms of Use are applicable for an indefinite period. The term of the Digital Extras is set forth in the respective description of the Digital Extras or in the contract between the Customer and the seller of the Fee-based Digital Extras. Digital Extras that can be subscribed to for a specific term and at the end of the term and are deactivated.
- 9.2 The Provider may terminate the Terms of Use at any time with 30 days' notice, but no earlier than the expiration of the last Fee-based Digital Extra. Fee-based Digital Extras shall end with the expiration of the purchased Fee-based Digital Extra. Free Digital Extras may be canceled by the Provider at any time with a reasonable period of notice. The Provider shall give notice of the termination in text form (including by e-mail, SMS and a message to the Mercedes-Benz inbox).
The Customer may terminate the Terms of Use at any time without notice. The Customer can issue the termination by clicking on the Terms of Use in the User Account, by deleting the User Account or in text form (including e-mail) addressed to the CCC. In doing so, the Customer will no longer have access to the Digital Extras.

Please note: Any obligations to pay the fees for Fee-based Digital Extras shall remain unaffected by any termination of the Terms of Use or deactivation of individual Digital Extras by the Customer.

Please note: The deletion of the App in accordance to Clause 4.9 and the deactivation of Digital Extras in accordance with Clause 4.11 do not constitute a termination. Notice of termination must be given via the Customer's User Account or in text form (including e-mail) to the CCC.

- 9.3 If a Customer who uses the Digital Extras via the Apps relocates to a country in which the Apps are not available, the Customer can no longer use the Digital Extras via the Apps.

Please note: Any obligations to pay the fees for Fee-based Digital Extras shall remain unaffected by a change of residence.

- 9.4 Termination of the Terms of Use for good cause shall remain unaffected. A good cause for termination by the Provider may include contravention of these Terms of Use and misuse of Digital Extras. The Provider shall give notice of termination for good cause in text form (including by email and Mercedes-Benz inbox message) and the Customer shall do so via his/her User Account or in text form (including email) to the CCC.

Please note: Any obligations for payment of fees for Fee-based Digital Extras will remain unaffected by any termination of the Terms of Use for good cause by the Provider.

- 9.5 In the event of termination of the Terms of Use, the relevant Digital Extras will be deactivated in the affected vehicles or for the Other Products. The Customer's User Account shall remain valid even after the termination of the Terms of Use until the deletion of the User Account.
- 9.6 The Provider may transfer all rights and obligations arising from the contract to a third party or to the local Mercedes-Benz Group AG Group companies located in the target countries ("Contract Transfer"). The Provider shall notify the Customer of the Contract Transfer in advance in text form (including by e-mail, SMS or a message to the Mercedes-Benz inbox) with a notice period of two (2) months. In this case, the Customer is entitled to terminate the contract with immediate effect within this two-month period after the announcement of the Contract Transfer. The Customer can give notice of termination via his User Account or in text form (including by email) to the CCC.

10. Other Users and Co-User Authorization

- 10.1 To enable other persons to access Digital Extras, the Customer may authorise these other persons as co-users ("Co-Users") on his User Account. To use the Digital Extras as Co-Users, the Co-Users are required to set up a User Account and confirm online that the Customer has authorised them. The Co-Users are required to consent to the Privacy Notice set out in the Apps.

To use the Digital Extras as Co-Users via Apps, these persons must also purchase Apps and install them on a compatible end device.

- 10.2 The Co-User is able to view, operate and use certain Digital Extras in exactly the same way as the Customer (e.g. to query the vehicle status and program the auxiliary heating). However, the purchase or subscription (if available) of Digital Extras, cancellation, activation and deactivation of Digital Extras, as well as pairing and unpairing of the vehicle or Other Product, remain at the customer's discretion

In the case of programming, the last command received always applies, regardless of whether the command originates from the Customer or the Co-User. However, Co-Users cannot activate or deactivate the Digital Extras themselves. The scope of the Digital Extras available for the Co-User may vary.

- 10.3 The Customer can revoke the authorisation of a Co-User at any time via his User Account.

11. Liability

- 11.1 In the event that the Provider is liable in accordance with the applicable laws for damages caused by negligence, the liability of the Provider shall be limited as follows: liability exists only if material imminent obligations arising from the use of the Digital Extras have been violated, in particular those which are imposed upon the Provider in accordance with and the spirit and purpose of the Terms of Use or whose performance is prerequisite for the due and proper performance of the Digital Extras, where the Customer regularly relies and ought to be able to rely upon compliance with such obligations. This liability is limited to typical damage foreseeable at the time the Terms of Use take effect.

- 11.2 Regardless of the issue of fault, this shall not prejudice the liability of the Provider if the Provider has provided a guarantee or accepted a procurement risk, or under the governing laws of Malaysia.

- 11.3 Personal liability on the part of the legal representatives, vicarious agents and employees of the Provider is excluded in cases of damage resulting from the Provider's slight negligence.

- 11.4 The aforementioned limitations on liability and the aforementioned exclusion of liability do not apply to damages resulting from a grossly negligent or intentional breach of the obligations of the Provider, its legal representatives or its vicarious agents, or in the event of death or personal injury.

- 11.5 If the Customer is a consumer within the meaning of Section 3 of the Consumer Protection Act 1999 ("CPA 1999") and the subject matter of the contract is also the provision of digital content or digital services, whereby the vehicle can also fulfill its function without these digital products, the statutory provisions of the CPA 1999 shall apply to this digital content or digital services.

12. Data Protection and Data Security

- 12.1 The Provider takes the protection of the personal data of the users of the Digital Extras seriously, and gives due consideration to the protection of the user's privacy when processing personal data.
- 12.2 Further information regarding the data processing as well as data protection and data security can be found in the Privacy Notices for the Digital Extras Services.
- 12.3 The relationship between a registered business (cf. Clause 4.3) and the Provider is governed by the provisions of these Terms of Use (with the exception of the Van Uptime Digital Extras (see Section 4.49 of the Privacy Notices for the Digital Extras Services). If the Customer is a registered business and uses the Digital Extras in the pursuit of its commercial or private professional activities and it provides the vehicle to another vehicle user for use, the registered business must note that it may give have access to the vehicle user's personal data via the Digital Extras. In this case, the registered business is the data controller for the processing of the vehicle user's personal data. As the data controller, the Customer or registered business is obliged to protect the vehicle user's legal rights (cf. Clause 8.12 and 8.13 in particular).

13. Final Provisions

- 13.1 If the Customer is a merchant, legal entity of public law or a special fund under public law, the exclusive court of jurisdiction for all disputes arising from the contractual relationship between the Customer and the Provider is competent Courts Malaya. The same court of jurisdiction applies if the Customer has no general place of jurisdiction in Malaysia, moves his/her place of residence out of Malaysia after conclusion of the contract or if his/her place of residence is unknown at the time the action is brought.
- 13.2 The present relationship between the Customer and the Provider is governed and construed in accordance with the laws of Malaysia
- 13.3 Should one or more of the foregoing provisions be or become invalid, the validity of the remaining provisions will not be affected thereby.

14. Identity of the Provider; Contact Details

- 14.1 The Digital Extras are offered by Mercedes-Benz Malaysia Sdn. Bhd., Wisma Mercedes-Benz, 16A Jalan BK 1/13, Taman Perindustrian Bandar Kinrara, 47180 Puchong, Selangor Darul Ehsan.

- 14.2 Contact details for CCC:

*) Please note that the scopes may vary according to model series and year of manufacture or local standard equipment offered in the vehicle between private and business customer accounts.

- 1) To use the Mercedes-Benz Digital Extras, a personal Mercedes me ID and agreement to the Terms of Use for the Mercedes-Benz Digital Extras are required. In addition, the relevant vehicle must be linked to the user account. On expiry of the initial term, the services can be extended for a fee, provided that they are still available for the vehicle concerned. Initial activation of the services can be carried out by the customer within 1 year of initial registration or start-up, whichever occurs first.
- 2) For information on compatible end devices and operating systems, visit www.mercedes-benz-mobile.com.
- 3) The Digital Extras from Mercedes-Benz have been rolled out in the following countries: Belgium, Denmark, Germany, Finland, France, United Kingdom, Ireland, Italy, Liechtenstein, Luxembourg, Netherlands, Norway, Austria, Poland, Portugal, Sweden, Switzerland, Slovakia, Spain, Czech Republic, Hungary, Malta, Cyprus, Greece, Romania, Croatia, Slovenia, Latvia, Estonia, Lithuania, Bulgaria, Dubai, Abu Dhabi, China, South Africa, Japan, USA, Canada, Taiwan, Australia, New Zealand, Thailand, Mexico, Malaysia, India, Hong Kong, Macao, Singapore
- 4) The Digital Extras at VAN have been rolled out in the following countries: Australia, Austria, Belgium, Bulgaria, Canada, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Netherlands, New Zealand, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, United Kingdom, USA
- 5) In Malaysia, Digital Extras are available for all model series from production date 06/2019 onwards. However, the availability of certain services may depend on whether specific equipment(s) are installed in the vehicle. The availability of these services and equipment may also vary depending on the offerings. You are advised to make an enquiry regarding the availability before making a purchase.
- 6) Connection of the communication module with the mobile phone network depends on the actual network coverage and availability.
